Profile

Enthusiastic recent graduate with a Bachelor's in Electronics and Communication Engineering (2023), passionate about web development. Eager to bring a fresh perspective, learn, and contribute as a quick learner and collaborative team player, I am well-positioned to leverage my technical skills to excel in both frontend and backend development.

Education

Diploma in Electronics and Communication Engineering

Ganga institute of Technology and Management, HSBTE, [Haryana], [10-08-2015 - 10-09-2019]

Throughout the program, I delved into various subjects, including Microprocessor, Consumer Electronics, Digital Electronics, among others. I successfully completed the diploma with a commendable performance, securing an overall score of 61.3 percent.

Project:

I actively engaged in projects and coursework that significantly contributed to my skill set. One notable project was the "Gesture Control Robo," where I gained hands-on experience and applied theoretical knowledge in a practical setting.

Bachelor of Technology (B.Tech) in Electronics and Communication Engineering, Dr. Akhilesh Das Gupta Institute of Technology and Management, New Delhi

AUGUST 2020 – SEPTEMBER 2023

GGSIU,

Studied a comprehensive curriculum that included in-depth exploration of subjects such as Digital Signal Processing, Communication Systems, Microcontrollers, and more. During this time, I achieved an impressive academic performance with a cumulative grade of 83.4 Percent.

Project:

Engaged in the development of a social media website, (web design part) contributing to the practical application of my academic knowledge.

Internships

Backend Development Intern, Noida

SEPTEMBER 2023 – MARCH 2024

AwwalTech IT Solutions

During a 6-month internship at AwwalTech IT Solutions, I focused on enhancing my skills in Node.js, Express.js, and MongoDB. Throughout this period, I actively contributed to several projects, showcasing my proficiency in real-time chat applications using Node.js, Express, and Socket.io. Additionally, I developed APIs and worked on a backend project for a job portal.

I also gained valuable experience working on various APIs, showcasing my versatility and adaptability in handling diverse technical challenges.
